

Distribution blocks Moblock are offered in two-pole (up to 35 mm² and 125A) and four-pole (up to 50 mm² and 160A) versions. Terminal blocks are placed on isolated brackets and are covered with easily removable transparent plastic cover. Terminal blocks are covered with a plastic part also from the bottom and between each busbar an insulating barrier is included.

Installation is possible on the DIN rail or panel using screws. Conductive part is made of brass, the connecting parts are made of steel, Zn galvanized.

For convenient and easy connection the 160A type input is separated on the busbar from the outputs. Massive 50 mm² endpoint on the busbar does not limit current capacity of the block and is set into the reinforced plastic housing.

**Moblock 2P
100A-7**

**Moblock 2P
125A-11**

**Moblock 2P
125A-15**
