

# Cable Scissors No. 35

WEICON has been developing and producing various types of cable strippers since 1967. These premium quality tools are TÜV-tested, carry the GS seal for verified safety, and were developed taking occupational safety and user-friendliness aspects into account. The WEICON range includes cable strippers, cable dismantling tools, wire strippers and various multifunctional tools for professional users.

## Description

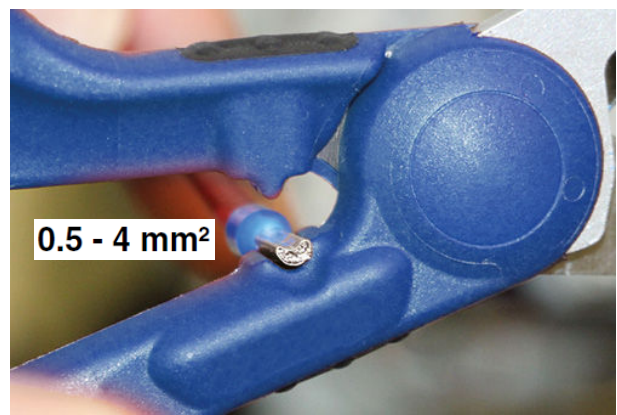

Cable Scissors No. 35 are suitable for three different applications: cutting, stripping and crimping. The scissors are specially designed for many situations in everyday work. This makes them a useful addition to other tools in the field of electrical installations. The Cable Scissors have been specifically tailored to the needs of professional users and are used in both, crafts and industry.

For cutting and stripping of Cu/Al conductors as well as for crimping of terminals from 0.5 to 4 mm<sup>2</sup>. The cutting edges of the scissors are serrated. This achieves a flush cut and the slipping of the cable is prevented.

## Technical data

Field of use:	Fine-stranded copper and aluminum cables up to a cross section of 50 mm <sup>2</sup> Serrated blades for a very precise cut
Blade hardness:	HRC 55
Additional benefits:	Dismantling, stripping and crimping of wire ends between 0.5 and 4 mm <sup>2</sup>
Material:	Stainless blades made of high-quality INOX steel
Length:	150 mm
Weight:	90 g
Accessories:	Safety box with a belt clip

## Note

Working with WEICON Stripping Tools is only permitted on potential-free wires and conductors.
